The statistics are absolutely alarming! Over 800,000 people are lured into the human trafficking every year (U.S. Dept of State). The number of victims forced into the human trafficking industry is growing rapidly. As one of the fastest-growing organized crimes today, this issue needs to be brought of the dark and into the light. The crime is in our own country and in our own cities! Prevention is the key.

Jenn's calling is to be a bold voice that creates protection through awareness and to reach into the darkness to meet those in the sex industry where they are.

War Chest Boutique merchandise will be available to purchase at this event.
